

S³SmartMed

The European Strategic Cluster **Partnership**
for **Smart** Specialisation **investments**
in **medical** technologies

Discover more at: www.s3martmed.eu

This initiative is part of the S³martMed project, the European Strategic Cluster Partnership (ESCP) for smart specialisation investments in medical technologies, which has received funding from the European Union's COSME Programme (2014-2020).

A **European Strategic Cluster Partnership** to identify the key future investment priorities and joint activities for the emergence of interregional innovation and business collaborations in the **medical technologies sector**.

GOALS

- Build a strong **Cluster Partnership for R&D and Innovation** development and SMEs' growth in the European MedTech Industry.
- Boost **interregional business and scientific collaborations** between MedTech SMEs and RTOs.
- Work alongside the Regional Authorities **to define the future EU funding schemes** for innovation.

ACTIONS

- **Three professional webinars** to define synergies and cross-sectorial opportunities in MedTech.
- **Two interregional networking** events including face-to-face meetings to gather SMEs, RTOs and Clusters.
→ **SAVE THE DATE:** 1st S3martMed Business Brokerage event on Sept. 19 & 20, 2019, Tubingen.
- Creation of **matchmaking opportunities** to foster cross-EU Innovation projects.
- Taylor made **business advisory activities** for high potential innovative projects.
